Place your credit card here and ensure it matches this outline for accurate sizing.
The width and height must match 100%.

How to measure your watch strap**Step 1**

For accurate results, print this on A4 paper at 100% scale using a laptop or computer without adjusting any sizes.

Step 2

Determine your strap size by placing the lugs of your watch between the **Guides** and selecting the number that fits precisely.

Step 3

If you wish to use your current buckle, place it between the **Guides** to confirm the exact width you need for the buckle side.
